

# **Humber River Hospital Foundation Annual Report 2013-2014**

**Coming soon.**

**October 18, 2015.**

**The new Humber River Hospital located at Keele Street and Highway 401 in Toronto. Opening October 18, 2015.**

## How are you helping us finish the job?

Philanthropy comes in many shapes and sizes - it's as diverse as the community we serve here at Humber. Our community has stepped up in many different ways to help us finish our world-class new hospital. There are so many highlights from the past year - our hearts are full of stories like our entire Environmental Services Department and how they became the first department in our hospital to reach the 100% staff giving milestone. From inside the Humber family, to the greater community at large, our champions are volunteering, donating and inspiring every single day. All of these tremendous efforts will help us open the doors to the new Humber River Hospital on October 18, 2015.

The new hospital is going to be the best in the city, putting patients and their family at the center of their care. It's going to make such a difference for patients in this community. But it'll need a lot of equipment to ensure we can deliver the best care possible. In fact, we are fundraising for over 55,000 pieces of equipment that need to be purchased before the new hospital opens.

From recliner chairs to make patients and their families more comfortable, to MRIs, and CT scanners, and IV poles and beds. Every piece of equipment impacts our patients' health, happiness, and well-being.

Please know that every single donation - regardless of the size - makes a big difference and is helping us finish the job.

Sincerely,

A handwritten signature in cursive script that reads "Heather Hurst".

Heather Hurst  
President and CEO, HRH Foundation

A handwritten signature in cursive script that reads "E. Battiston".

Eddy Battiston  
Chairman of the Board, HRH Foundation

# Help us finish the job.

A simple statement with a huge impact. How is the community helping us finish our spectacular new hospital? The answer to that question is as varied as the services offered at Humber. Every one of our donors, volunteers, sponsors, doctors, nurses and staff has chosen Humber. In a city with so many choices, we are honoured to have a strong and growing family of supporters and champions, each of them playing a role in helping us finish the world class hospital going up quickly at Keele Street and Highway 401. We asked a loyal yet eclectic group of our donors one simple question: How are you helping us finish the job? Some answers may surprise you, many will inspire you, but above all, they may get you wondering - if you're not already helping us finish the job, what are you waiting for?

We're helping to finish the job by:  
**inspiring Humber's family to give.**

"As Co-Chairs of the Humber River Hospital Family Campaign, we believe in everyone who works at Humber and the amazing things they can do – save lives, inspire hope during difficult times, and support our bright future. It's important for the community to know that many of the men and women of Humber, from our doctors and staff to our volunteers and board members, stand proudly behind our new Hospital and are financially supporting the building and equipping of our new home. Thousands of people in Humber's family are giving, and many more are following. We don't just work here, we believe in Humber, we believe in the new hospital and we give."

**Mary Latter and Louisa Ceci**

*Co-Chairs, Humber River Hospital Family Campaign*

We're helping to finish the job by:  
**leading the campaign for the new hospital.**

"Investing in the health of our community is in our DNA. Pat and I started our careers as a registered nurse and a registered psychiatric nurse, respectively, before moving into the pharmaceutical industry at Apotex. For over 30 years we have supported Humber River Hospital as donors and volunteers. Our relationship with Humber River is a personal one. Our two sons were born at the Finch site and with the Apotex headquarters located just minutes away from that same site, Humber River serves thousands of our employees and their families. We believe the best investment you can make is in your health. Professional and family experiences have emphasized the importance of Mental Health programs. That's why we decided to donate to the new Hospital's Mental Health & Addictions program. We challenge community leaders and companies to follow in our footsteps as we raise \$225 million to help build and equip our new Hospital. You cannot go wrong by giving back to what is the most important element for Canadians, healthcare. The legacy we leave is a sustainable healthcare system for future generations."

**Pat Kay and Jack Kay**, *Co-Chair, Campaign, Humber River Hospital*

I'm helping to finish the job by:  
**honouring my doctor.**

"Simply put, Humber River Hospital saved my life. I was admitted to the ICU in 2005, after complications from radiation treatment. My systems started failing- my heart, my kidneys, everything. In total, I spent 4 weeks at Humber River Hospital, including 7 days in the ICU. I left a healthy man. For the past 9 years, I've been a patient of Dr. Gihad Nesrallah. He told me about the new hospital. I was so impressed by the marvelous plans and by the continued good care I receive from him, that I decided to make a donation on the spot. For me, it's so important to give back to my community and live philanthropically. I am proud to support Humber River Hospital and Dr. Nesrallah.

While we're fortunate to have a good healthcare system in Canada, we still need individuals to step up and support hospitals in order to have new facilities, the best equipment and continuing training for staff."

**George Turnbull, Donor**

We're helping to finish the job by:  
**finding a new way to donate.**

"For us, donating to Humber River Hospital is more than just supporting Humber's fantastic doctors, who go above and beyond to provide the best care for their patients. We are proud to donate to the new Humber River Hospital because we know the positive impact our new Hospital will have on us and for generations to come. We had been supporting Humber for a number of years already when our accountant suggested a new way for us to give – donating our appreciated stock. This method of giving is easy to do and we pay no tax on capital gains while supporting our new Hospital. For us donating stock is a terrific way to give back and make a difference."

**Carl and Thelma Anderson**  
*Long-time donors*

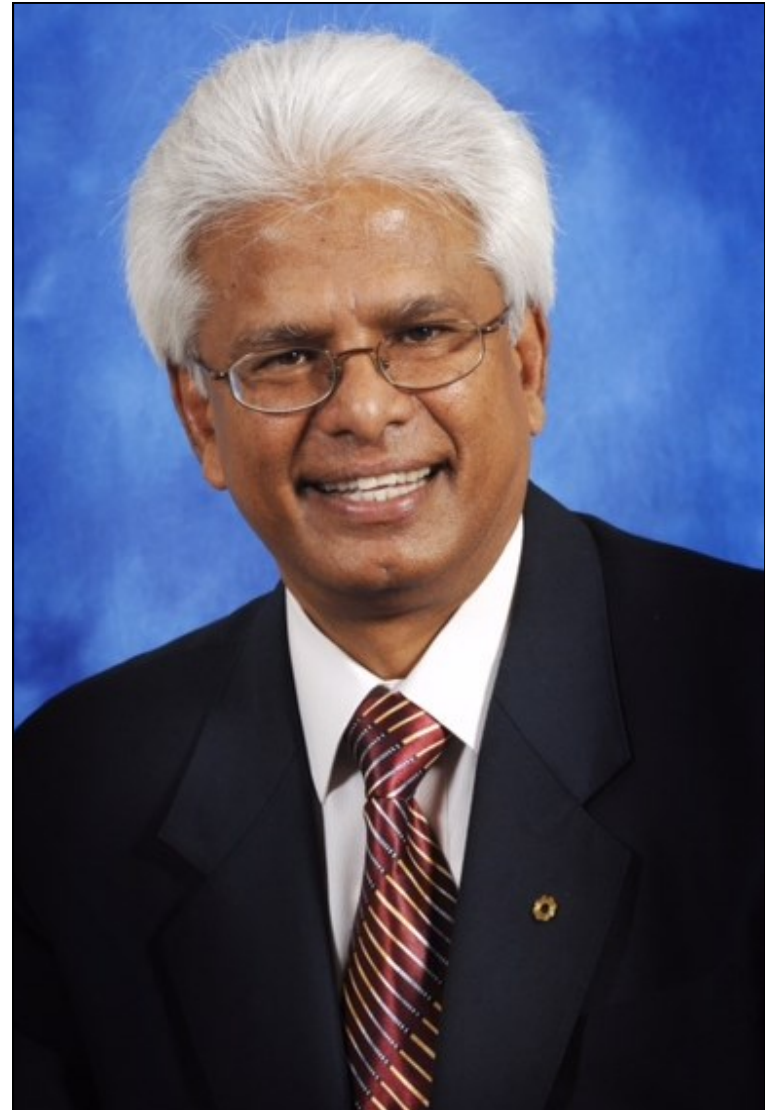

I'm helping to finish the job by:  
**being a Campaign volunteer.**

"My relationship with Humber River Hospital started many years ago when I was a patient of Dr. Jack Barkin. The care I received from him and the entire HRH team was incredible. Even though they did not know me personally they delivered care like I was a close family member. From the moment my ambulance pulled up to the Emergency entrance, to the time I was discharged, I encountered exceptionally caring people from all over the world. My healthcare team members were from Nigeria, Guyana, India, and South China to only name a few. Within my 40 hour stay I could map the whole world from Africa to Asia all the way back to the Caribbean. Our new hospital is putting Humber on the map. People across the world will look to us as leaders in healthcare, taking notice of our fully digital, technologically advanced, health care facility. The new Humber River Hospital will be the most sophisticated Hospital located in the core of the GTA, and it's conveniently only minutes away from Pearson International Airport. I am proud of Humber's diversity and everyone coming together to help build a Hospital that will advance healthcare. As a volunteer - I am excited to have the opportunity to invite others to join me in celebrating what makes Humber River Hospital unique."

**Ken Singh**

*President, Atlas International Freight Forwarding Inc.  
Humber River Hospital Foundation Campaign Cabinet*

I'm helping to finish the job by:  
**supporting my roots.**

"I am proud to say that Humber has truly been part of my past, present and future. I've had deep roots in Humber's Church site for over 30 years. I began my early career at Humber as a Registered Laboratory Technologist. I thought I was going to spend my entire career helping people diagnose their illnesses. Things changed and I ended up in a new career as a winemaker when my husband and I decided to open our own family winery. Later, I sat on the Board of Directors. Today, I am working hand-in-hand with the new Hospital to establish Canada's first research and screening facility for Lyme Disease. Over the years, I have watched the hospital grow in the community. My years at the hospital helped define me as a young adult and prepared me for an unexpected journey. From lab technologist to winemaker to community advocate, I will always be grateful to Humber for giving me a strong sense of integrity and caring for the human condition in any path I pursued."

**Rosanna Magnotta**

*President and CEO, Magnotta Winery and proud Humber supporter*

They're helping to finish the job by:  
**making dreams of improved healthcare a reality.**

When the new Humber River Hospital opens its doors in 2015, over 3,500 tradespeople will feel proud knowing that they contributed to the construction of an innovative new hospital that will transform patient care in this city, province and nation. By the time the new Humber River Hospital is complete, skilled tradespeople will have contributed an impressive 6.6 million hours to building North America's first fully digital hospital. Many of the tradespeople are also helping us finish the job by volunteering, donating and spreading the word about your state-of-the-art new Hospital. They wear "I'm helping to build the new Humber River Hospital" stickers on their hard hats to show their support of our vision to reinvent patient care, for you, your loved ones and generations to come.

I'm helping to finish the job by:  
**giving back to my community.**

"Having lived in this area for more than 40 years I have seen the impact Humber has had on our community and the level of comfort our extraordinary doctors provide patients and their families every single day. Humber River Hospital is a community hospital and to me this means we are all about relationships - the relationships our doctors have with their patients and the relationship our community has with our hospital. The campaign is about people coming together in appreciation for so many years of care at Humber. I am excited for our state-of-the-art facility and grateful that the new Humber River Hospital, our community hospital, will be North America's first fully digital hospital. I give back to our Hospital because I believe together we can change the future of health care."

***Tony Sampogna***

*Owner, Giorgio D Ristorante*

*Humber River Hospital Foundation Board Member*

We're helping to finish the job by:  
**donating every month.**

"When I was a patient at Humber River Hospital, the attention given to me by doctors and staff was remarkable. It's a pleasure to donate every month to what we think of as a 'family hospital', and we're excited that the new HRH has been designed from the ground up with patients and their families in mind."

**Maurice A. Quevillon**  
*Monthly Donor*

"Making a monthly donation to Humber River Hospital Foundation was an easy decision for me after years of excellent care. My family has lived in this area for generations-we raised chickens and my house used to be surrounded by fields. There has been plenty of change here over the years, but the new Humber River Hospital is going to be one of the most positive changes yet. We're proud to give back every month."

**Robert Crawford**  
*Monthly Donor*

We're helping to finish the job by:  
**giving together to make a big impact.**

*"La comunità is everything to us. It's with this strong desire to contribute to our community that the twelve founding members of the Calabrian Benevolent Association of Ontario came together to support the new Humber River Hospital with a very special and needed gift. By giving together we are able to leverage our individual contributions to make a big impact. Humber has always been there for the Italian-Canadian community in our times of need, and now it's our obligation to give back and help bring accessible, world-class healthcare to our neighbourhood. As a local community association of Calabrian professionals and entrepreneurs, we are making this donation because it is the right thing to do. We hope this pledge will inspire others to join us in supporting this important, new Hospital."*

**Ralph Chiodo**  
*Chair, CBAO*

I'm helping to finish the job by:  
**making a gift at work.**

"Having worked at Humber River Hospital for over 23 years, I wanted to give back. With less than one year until we are handed the keys to our new hospital, it is important for me to show my support and encourage my co-workers to do the same. It is impactful when a group of people can come together for a common goal. Every gift, no matter how big or small, makes a difference. I am excited to say that I have been a part of a group of people that have done exactly this. Every member of the Environmental Services Department at Finch, Church and Keele sites has contributed a gift towards the new hospital, making us the first team to achieve 100% staff giving. For me, this is a powerful message. It shows our community and our colleagues that we are 100% behind this campaign. One day looking back, we will be proud of the place we worked for so many years, be proud of our accomplishments, and feel good knowing that we have made a difference to patient care."

**Patrick Fernando**

*Environmental Services, Humber River Hospital*

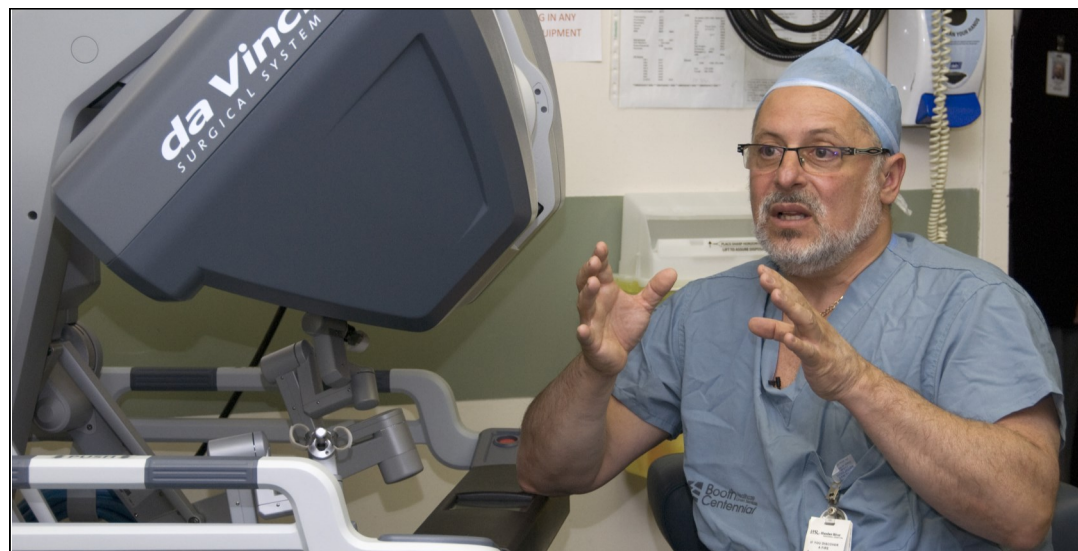

I'm helping to finish the job by:  
**making a meaningful investment.**

"I have been supporting the Humber River Hospital for 30 years. It started when, as a local business owner in 1985, I was first approached to join the York Finch Board of Directors. At that time our company, Donlee Manufacturing, operated out of five buildings with a total staff of 600 employees located in the Hospital's catchment area. For the next 15 years I participated in board activities. It was during this period that we merged York-Finch with Northwestern General and Humber Memorial. Integrating the three hospitals was an interesting and challenging project which lead to the planning of the new Hospital. I am thankful that we started this project when we did and next year when the new building opens, I will be proud that my contribution has helped make this a reality."

**Paul Murray**

*Donor*

I'm helping to finish the job by:  
**supporting the place I call home.**

"For me, home has always been at Humber River Hospital. In 1982 I completed my fellowship in Urology at University of Toronto and I had a decision to make. I could take the academic route and teach downtown, or I could work in a community hospital and provide care to those people that had not been afforded the proper medical care as could have been delivered downtown - I felt like I could have more of an impact on the community by providing that care at Northwestern General Hospital. Over the years I also managed to increase and contribute to teaching both downtown as well as in the community to the family doctors and other specialists. As Chief of Staff for the last seven and a half years, I was able to recruit a number of doctors of the highest caliber and with tremendous talent. They have developed national and international reputations, and have been attracting other physicians to our hospital. With our ability to provide the new hospital with the latest state of the art medical equipment, we will continue to

attract even more physicians that want the privilege of working in this type of facility. With our new hospital, our present world class physicians will have a world class facility that benefits their remarkable skill and talent, as well as providing the care to a catchment area that will support almost 1 million people. But we too have a role to play in making this new hospital a reality. I am proud that three of our departments have reached 100% physician giving, and are leading the charge for Humber to achieve 100% giving amongst all medical staff. Both the community and our medical staff deserve this new hospital. Very few physicians in their lifetime will have the opportunity to work in such a technologically advanced, unique facility. And for that we are grateful."

**Dr. Jack Barkin**

*Chief of Staff, Humber River Hospital*

# We're getting closer to finishing the job.

Every dollar raised moves us closer to finishing our new hospital. The moving day is set, and the momentum is building as we merge three hospital sites into one. But at Humber River Hospital Foundation, we are accountable to you, our donors. Our bottom line is driven by our commitment to ensure the most money possible is transferred to Humber River Hospital for life saving needs in our new hospital. The following report highlights the financial activity in the Foundation for the 2013/2014 fiscal year. Each fiscal year, the Foundation is audited by an external auditing firm. To request a copy of the Foundation's audited financial statements, please contact us at 416-658-2001 or via e-mail at [foundation@hrh.ca](mailto:foundation@hrh.ca).

# The Campaign for the new Humber River Hospital FINANCIAL UPDATE (as of March 31, 2014)

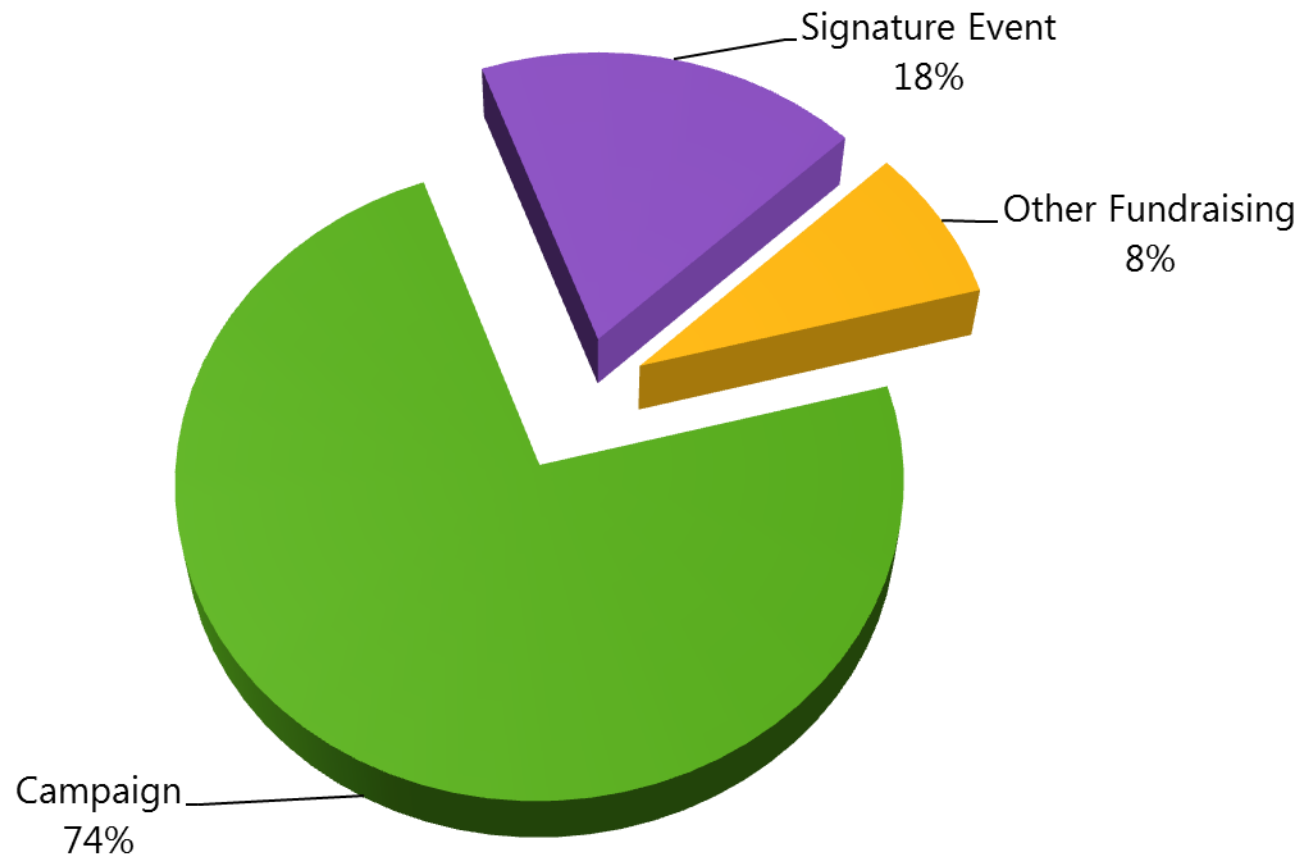

- \$59.96 million raised to date
- \$225 million goal

Amount raised in cash and pledges for the new hospital campaign in the 2013/2014 fiscal year, ending March 31, 2014:

**\$10,300,000**

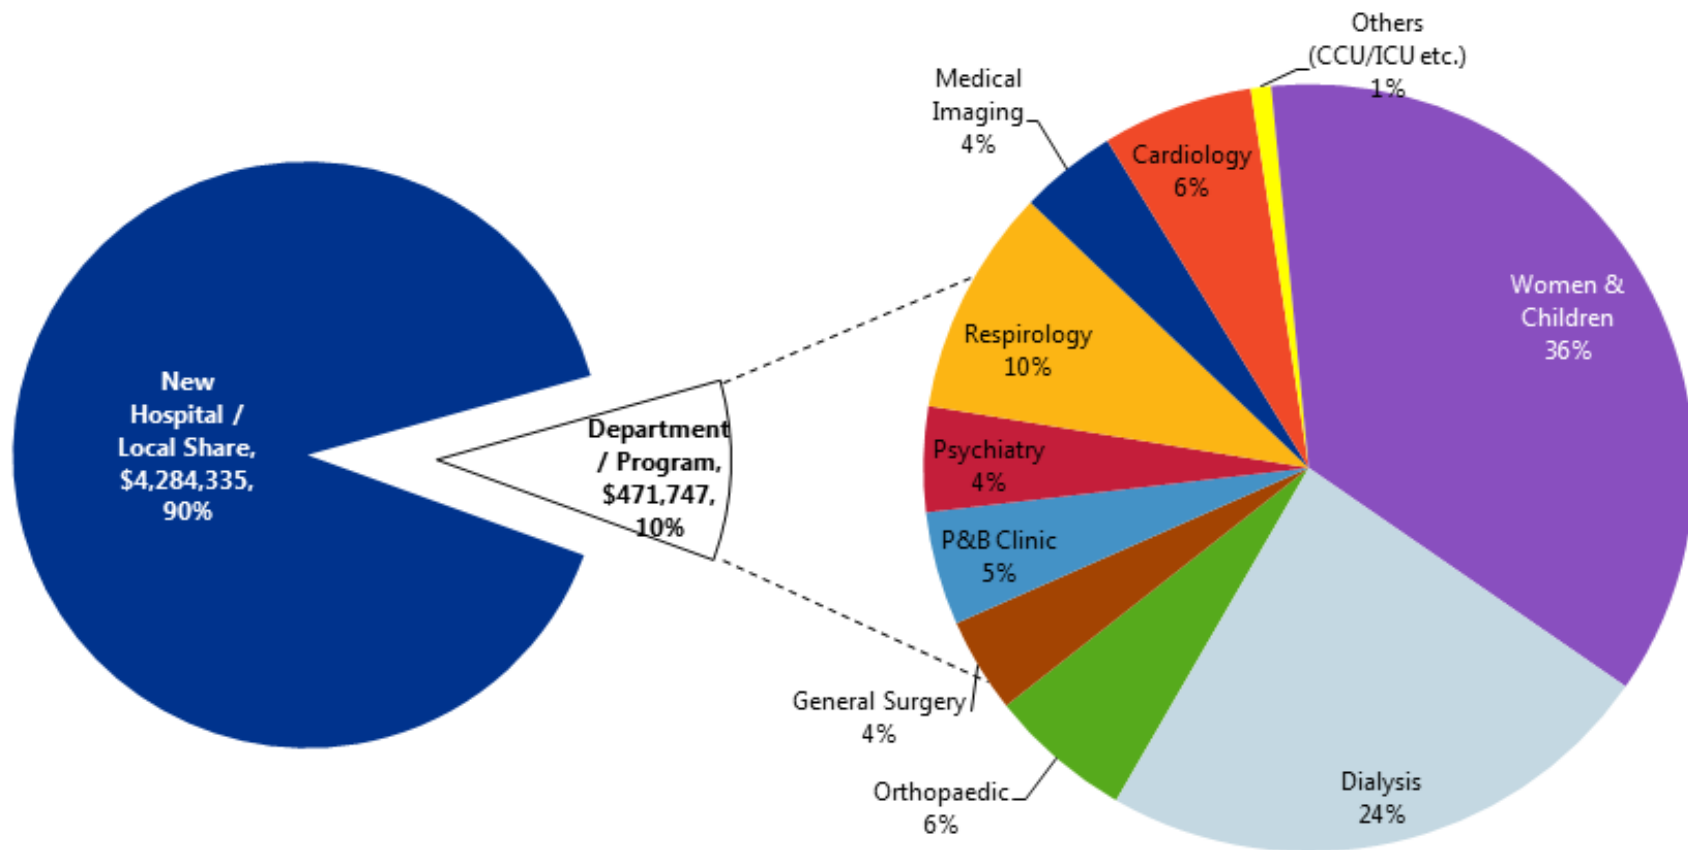

## 2013 / 2014 Sources of Revenue

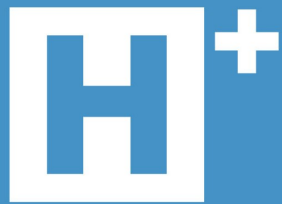

**Gross Fundraising Program Revenue**  
**\$ 8.15 m**

## 2013 / 2014 Transfer to Hospital

**Total Amount: \$4,756,082**

# Thank you for helping us finish the job.

Thank you to all our donors, volunteers, board members, doctors, nurses and staff members for doing your part to help us finish the job. Your support has made the dream of patient care reinvented that much closer to being a reality. The following pages list all our donors for the 2013-2014 fiscal year. And what a list it is! But while our successes are many, our need is still great. We look forward to welcoming back our loyal supporters this coming year, and meeting new donors who will help us proudly proclaim - we finished the job.

# New Hospital Campaign Donors

*The Humber River Hospital Foundation gratefully acknowledges the following donors who have demonstrated their commitment to support the NEW Hospital with a pledge or a cumulative gift from 2008 to March 31, 2014.*

In the NEW Humber River Hospital:

**You can visit your loved one, 24 hours a day, 7 days a week.** Because you should visit your loved ones when they need you, not when we say so.

Patients will have more privacy. Instead of wards or shared rooms, **80% of hospital rooms are designed for one patient.** This helps prevent the spread of infections too!

In the NEW Humber River Hospital:

Some nights, you just can't leave your loved one. We get it. **Patient care rooms** will have a comfortable recliner chair that flattens to a bed where you can have your own place to sleep and still be close to your loved one.

We're making our **large hospital feel small** with a design that allows you to be dropped off at one of our many entrances so you're never more than 30 feet to your clinic reception desk.

# We still need your help to finish the job.

We're asking you to imagine tomorrow and get involved today. Help us finish this world class hospital, where caring will be just as important as care. Your support is vitally important right now. Please stay involved and help us spread the word:

*Visit [www.hrhfoundation.ca](http://www.hrhfoundation.ca) to "Like" us on Facebook, follow us on Twitter and sign up to receive our newsletter 'EDGE' and track our building progress.*
